

PLV-20 Phone Line Verifier

NEW!

Local Telephone Line Status Notification

Introducing the PLV-20 Phone Line Verifier from Kings III, the technology you need to comply with emerging codes today.

- ▶ Telephone Line status verification is a requirement of ASME A17.1b-2009 for new or altered elevators. (Section 2.27.1.1.6)
- ▶ The PLV-20 is designed to detect faults and disruptions in telephone service and provide visual and audible local alerts when a problem is detected.
- ▶ Audible alert can be silenced. Visual alert automatically resets when phone line is restored.
- ▶ The PLV-20 is also suitable for phone line verification for other types of phones such as garage, stairwell or area of refuge telephones.
