Kings III Services

Kings III is the Nation's leading provider of emergency communication solutions making us the ideal choice for complete, turnkey emergency telephone/intercom needs.

As code requirements tighten, it becomes more important to trust an emergency phone expert when choosing among the myriad solutions available. All Kings III products are developed, designed and manufactured in the USA. Our in-house engineering team makes sure each product meets or exceeds national, state and local codes including accessibility and health codes.

In addition to the sale of emergency telephone and intercom hardware, we offer **installation, maintenance/repair** and **monitoring/dispatch** services nationwide. As the only full-line emergency phone manufacturer to offer these services, you can be assured that our extensive field experience is reflected in the design of our products.

The Kings III Emergency Dispatch Center and our fully-redundant Disaster Recovery Center provide professional, reliable emergency telephone answering and dispatch services around the clock. Every operator is trained to handle emergency calls and is Red Cross CPR certified and shift supervisors are Advanced Emergency Medical Dispatch certified. All calls are automatically digitally recorded and permanently archived for your protection.

Whether you simply need robust, reliable emergency communication hardware or maintenance, installation or monitoring services, Kings III is your single point of contact. Combining state-of-the-art design and manufacturing with industry leading facilities and procedures results in the clear choice for all of your emergency communication needs.

Delivering services through technology to help people

Elevator SiteConnect

SiteConnect Lobby Intercom Kit

- ▶ One CN-8 Router
- ▶ One IP-3000 Lobby Intercom

LBK-1 Kit Price: \$917

SiteConnect Master Station Kit

- ▶ One CN-8 Router
- ▶ One MST-4 Master Station

MSK-1 Kit Price: \$784

Select phones and options listed at right.

A) CN-8 Router (Required)

CN-8 Router supports up to 8 SafeCall ADA phones on a single phone line and offers the industry's only ASME compliant solution with back-up line capability. Enables simultaneous communication with all ADA phones. Requires less homerun wiring than competing models, saving labor costs.

8" wide × 9" high × 3" deep

▶ Unit Price: \$699

B) Elevator Phone (Required)

All SafeCall series emergency telephones are compatible with the SiteConnect system. See prior pages for complete model descriptions. Standard finish is #4 brushed stainless steel. Custom sizes and finishes are available.

Select model(s) and quantity to add to kits above:

- ▶ SC-3000 C.O.P. / Unit Price: \$251
- ▶ SC-3000-U / Unit Price: \$230
- ▶ SM-3000 / Unit Price: \$276
- ▶ FM-3000 / Unit Price: \$289
- ▶ FM-3000-DP / Unit Price: \$300

C) MST-4 Master Station Telephone (Optional)

Any touchtone telephone, on or offsite, can be used as a master station. Our model is a four line phone for use at security desks, engineering, fire control, etc. Master Stations can selectively connect to any single, any combination, or all ADA phones. Connected phones can be added and dropped at will by the master station operator. Also suitable for machine room use.

Product appearance may vary.

▶ Unit Price: \$226

D) IP-3000 Lobby Intercom/Phone (Optional)

Brushed stainless steel, with selector switch, flush mounts for a clean profile. For use as an intercom to communicate with SafeCall ADA elevator phones. Install in the elevator lobby. Models 1 to 8. Specify number of elevators to be attached. Requires SafeCall ADA phones and CN-8 Router. See kit pricing.

6" wide × 9" high ▶ Unit Price: \$326

▶ Rough-in Box: \$57

Enables simultaneous communication with all SafeCall ADA phones

PLV-20 Phone Line Verifier

SPECIFICATIONS

Application	Loop Start Phone Line Monitoring
Dimensions	3.0 in x 4.0 in (7.62 cm x 10.16 cm)
Power	8-24 Volts AC/DC @ 20VA
Current Draw	Idle (Line okay) = 10ma Active (Reporting dead line) = 100ma
FCC Part 68, TIA-968-A and Industry Canada Certified	

PLV-20 Phone Line Verifier

The technology you need to comply with emerging codes. Telephone line status verification is a requirement of ASME A17.1b-2009 for new or altered elevators. (Section 2.27.1.1.6)

The PLV-20 is designed to detect faults and disruptions in telephone service and provide visual and audible local alerts when a problem is detected. Audible alerts can be silenced. Visual alert automatically resets when phone line is restored.

Also suitable for other types of phones such as garage, stairwell or area of refuge telephones.

Note: Requires additional hardware supplied by elevator fixture manufacturers or fixture suppliers.

► Unit Price: \$123

For orders call 1.800.393.5858 / email: sales@kingsiii.com

Stairwell/Areas of Refuge/Garage Phones
